System Integration Working Group Welcome

Col Joe Chang

ISR Director

28 Jul 04

Purpose Re-Stated

The ISR SIWG is:

- Costly, but a must-pay bill
- Multi-Program Swath
- Air/Ground – many organizations
- A critical path meeting for successful System Engineering
- A technical exchange of integration issues
- All discussion should be on a non-attribution basis
- A formal means of managing/reducing program risk
- Testing is an integral part of the engineering process

Expectations

- LX System Engineering, Integration and Test Team (SEIT) responsible to orchestrate
- Be active in **your** integration communication
- Suggest improvements

WR-ALC Reorganization

U-2/DCGS System Integration Working Group Introduction

Scott Mangrum

23 Mar 04

Purpose

U-2/DCGS SIWG

Provide a technical forum to review system integration topics and issues relevant to the U-2 aircraft, aircraft systems, sensors and related DCGS ground elements

NOT a Program Management Review!

Ground Rules

- Stick to the Purpose – System Integration
- Stick to the Schedule – See Agenda
- One Conversation – No Sidebars
- Cell Phone/Pagers – Set to Stun
- Blackberries/PDA’s – Keep them Holstered
- Action Items – Fill out the Forms

Administrivia

NO CLASSIFIED DISCUSSIONS

- Emergency Evacuation
- Restrooms
- Access to Building 350 (LX)
- Telephones
- Messages
- Sign In
- No Social
